

SPECIFICATION: UTILITRUK TIPPA

All images are for illustrative purposes only and may include items that do not form part of the standard specification. TGS reserve the right to alter/amend any specification, design or part without prior notification.

DESCRIPTION

This is the ultimate tool for those who want to carry small plant, tools and equipment on their Dropside Vehicles. The Chassis mounted Toolpod that sits between Cab and Body is very accessible and practical to use, as it is lighter and more versatile than converting a Double Cab for the same purpose.

KEY FEATURES & BENEFITS

TOOLPOD

- » 600mm wide x 2000mm deep x gantry height (nominal external dimensions)
- » Roller Shutters to each side - lockable
- » Galvanised End Frames and Roof
- » GRP front and rear panels
- » Phenolic Floor

TIPPING BODY

- » Fully galvanised tipping frames – superior anti corrosion protection
- » Fully galvanised Gantry with protection infill panel
- » Alloy Sideboards with over centre catches
- » Removable corner posts
- » Two way tailboard hinge mechanism
- » Unique **Tippadek** alloy floor system
- » Electro Hydraulic Powerpack with Wanderlead controls
- » Hose burst protection
- » Audible warning device when operating Tippa
- » Body safety prop
- » Thermoplastic Mudwings
- » Under body rope hooks
- » Type Approved by VCA
- » Easy to replace parts for minimal down time in the event of damage.
